

## LOCAL MATTERS.

**WEATHER PROBABILITIES.**—War Department, Office of the Chief Signal Officer, Washington, D. C., Jan. 31 1878.—10:30 a. m.—For the Middle Atlantic States, warmer cloudy weather, with rain or snow, winds mostly from northeast to southeast, with falling barometer.

**THE STORM.**—The cold weather of yesterday evening increased until about midnight, when snow began to fall and continued until about nine o'clock this morning, when it changed to sleet. A northeast wind sprang up during the morning which made the weather exceedingly disagreeable, and that with the sleet and rain has continued up to the present writing. Along the river front the storm has been the most severe for many years. The waves in the river are higher than ever known and beat against the wharves with unparalleled fury, dashing the spray high over them. The vessels and steamers moored at the wharves are considered in imminent danger of being dashed to pieces. In all the lower part of the city, the stores are practically closed, and no business is attempted to be done. The Potomac Ferry boat, City of Alexandria, made two trips this morning, but was compelled to tie up in her slip on account of the boisterous condition of the river. None of the other lines are running. The Washington ferry boat succeeded in making one or two trips this evening, with considerable difficulty. When the Gazette went to press the waves were dashing wildly over the wharves and much damage to both the wharves and the vessels moored there was apprehended.

**FIRE.**—About a quarter of ten o'clock, this morning, a fire alarm was sounded, caused by the burning of a frame house on Washington street, near Wilkes, occupied by Patrick Breen and a number of colored families. The front of the building was occupied by Mr. Breen as a residence and John Slaven as a grocery store, and the rear was divided into several small tenements, which were occupied by colored families. In one of these latter the fire originated, and is said to have been caused by a child, who was left alone, and who meddled with the fire on the hearth. Mr. Breen and the other occupants succeeded in removing their furniture and goods with but slight loss, but the entire roof and a large portion of the back building of the houses were destroyed. The fire department were promptly on hand, but owing to the lack of water, the very inclement weather and other causes, were unable to do very effective service. They worked nobly, however, and did all that men could do under the circumstances.

The building was owned by Mr. John A. Dixon, and was damaged to the extent of about \$700, on which there is an insurance of \$1,000 in the Pennsylvania Insurance Company, of Philadelphia. The stock and furniture was not insured, but the damage thereon is trifling. The citizens in the neighborhood furnished large quantities of excellent coffee to the firemen, for which they were very grateful.

**PERSONAL.**—R. L. Caroe, esq., has been reappointed as Superintendent of Schools for the city of Alexandria, by the Board of Education. The appointment is peculiarly satisfactory to the citizens of Alexandria. The excellence of the public schools of this city is especially due to the fostering care and great experience of Superintendent Caroe, who has devoted his time and labor, almost without compensation, to the advancement of educational interests in this city.

**SAREPTA HALL.**—To-morrow night Mr. John T. Ford's Company from the Opera House, Washington, will present an especially fine program to our citizens. The bill consists of "All is not Gold that Glitters" and "Blunders." The company is composed of first class performers and a fine performance may be expected.

**POSTPONED.**—In consequence of the inclement weather, the magic lantern exhibition which was to have taken place in the lecture room of Christ Church, to-morrow night, has been postponed until further notice. Persons holding tickets can reserve them for the future performance.

**ALEXANDRIA CANAL.**—Mr. Philip Quigley, one of the lessees of the Alexandria Canal and Aqueduct, has arrived at Babylon, and is giving his personal supervision to repairs in progress there. The whole of the canal, exclusive of the aqueduct, is in perfect order.

**CATTLE DISEASE.**—During the past week or so, a disease has broken out among the cattle coming to this market and Georgetown which has proven very fatal. It attacks the lungs of the animals and but few recover.

## From Washington.

[SPECIAL TO THE ALEXANDRIA GAZETTE.] WASHINGTON, D. C., Jan. 31, SENATE.

In the Senate, to-day, the usual number of petitions, memorials, resolutions, &c., against the re-imposition of tax upon tea and coffee; against the passage of the Bland silver bill; against changes in the tariff; for increased postal facilities; against extension of certain patents; in relation to the Hot Springs reservation; for a reduction on the tax on tobacco; for the improvement of Indians; for a reduction of tax on linen; for the remonetization of silver; for the protection of wool growers; and for a commission on the liquor traffic were presented and referred.

A bill to define the rights of persons with respect to homestead entries on the public lands was taken up and passed.

Mr. Maxey gave notice that as soon as the silver bill was disposed of he would call up the bill for the establishment of suitable posts for the protection of the Rio Grande frontier.

Two or three private bills were passed. The House resolutions of thanks to H. M. Stanley, for his African explorations, were adopted.

The resolutions of the Legislature of Indiana praying an appropriation to satisfy the claims of certain States for expenses incurred in raising troops, &c., for the late war were referred.

The Rio Grande frontier protection bill was then taken up and Mr. Maxey explained and spoke briefly in favor of the bill, which was then passed.

The Bland silver bill was then taken up and further amendments offered.

Mr. Bayard thinking that the step about to be taken would be irrevocable, due deliberation should be had, and asked that

The further consideration of the bill be postponed till next Monday, and after debate the subject was laid over. After some unimportant business the Senate adjourned till Monday.

## HOUSE OF REPRESENTATIVES.

In the House of Representatives, petitions were presented for a continuance of the duty on wool, and for the remonetization of silver.

A resolution of enquiry was offered and referred as to the force in the Pension Bureau, and whether additional clerical force is not necessary.

Mr. Waddell reported back the bill to compensate postmasters and letter carriers.

The House then went into committee of the whole and took up the West Point Academy appropriation bill, which was considered.

## NOTES.

Mr. Cox, of N. Y., to-day in presenting petitions in the House in favor of remonetization, said that he should vote contrary to the expressed wish of the Legislature of his State; that the Legislature could do as it pleased, and that members of Congress would do what they thought right. He does not believe in instructions on the Silver bill at least.

The bill reported in the House to-day to regulate the compensation of postmasters fixes the salary of P. M.'s in accordance with the number of stamps cancelled, and not the number sold, as at present.

As far as can be learned in circles that should be well informed, it can be stated that the reported finding of indictments, in New Orleans, against Secretary Sherman, is entirely incorrect, though it is not at all improbable that, if during the continuance of the trial of Anderson & Co. the evidence should warrant it, such action may be taken ultimately.

Senator Cameron was on the floor of the Senate to-day, and afterwards on the floor of the House in conference with B. F. Butler.

Notwithstanding the remarkably inclement weather to-day ladies were in attendance in the galleries of the Senate and House. The general attendance was very small.

The roof of the Senate leaked so badly to-day that buckets had to be used in the galleries. The floor of the House to-day was again void of visitors, lobbyists, &c.

The members of the House were miserable because so many outsiders were admitted to the privileges of the floor, and now that all are excluded they are unhappy because they have none to whom they can unbosom themselves. They won't be satisfied anyway.

In the House of Representatives, yesterday, Mr. Harris, of Virginia, presented the petition of workmen of Liberty Furnace, Virginia, against the reduction of any tariff duties which affect labor, which was referred to the Committee on Ways and Means.

Mr. Houston presented the petition of the heirs of James Barnett for relief, which was referred to the Committee on Revolutionary Pensions.

No one doubts the high legal or literary attainments of Hon. J. R. Tucker, Representative in Congress from this State, or his ability, but as a leader, or manager, on the floor of the House, he is by no means successful; indeed, his apparent lack of knowledge of parliamentary usages is somewhat remarkable.

General Grant will not receive the ultra republicans' nomination for a third term if he reports that he approves of President Hayes' conciliatory Southern policy be true. We are disposed to doubt the correctness of the report and to attribute its authorship to some of the General's enemies. Up to this time he has certainly been the prospective candidate of the radical wing of his party for a third term, but unless he speedily disavows the truth of the report alluded to, they will class him with the dirt-eaters, and make Mr. Blaine or Mr. Cook their candidate for the next presidency.

The ball punch as a revenue agency in Maryland is gaining in favor among the members of the Legislature of that State. Mr. Bannan is preparing the bill for its introduction.

**A GENTLE HINT.**—In our style of climate, with its sudden changes of temperature—rain, wind and sunshine often intermingling in a single day—it is no wonder that our children, friends and relatives are so frequently taken from us by neglected colds, half the deaths resulting directly from this cause. A bottle of Bosche's German Syrup kept about your home for immediate use will prevent serious sickness, a large doctor's bill, and perhaps death, by the use of three or four doses. For curing Consumption, Hemorrhages, Pneumonia, Severe Coughs, Group or any disease of the Throat or Lungs, its success is simply wonderful, as your druggist will tell you. German Syrup is now sold in every town and village on this continent. Sample bottles for trial 10c; regular size 75c.

**TO RAISE MONEY.**—My fine stock of Clothing, Hats and Gents' Furnishing Goods will be sold out at a sacrifice.

S. DEALMAN,

62 King st., cor. Fairfax.

## News of the Day.

A shooting affray took place at New Orleans yesterday, on the levee, between Capt. J. T. Oppy, of the steamer Isabel, L. F. Bouchereau and J. Kutz. Eleven shots were fired in all, Capt. Oppy being slightly wounded in the right arm, and a colored man by the name of Bill Johnson and a white man named Schneider were also shot in the legs. The two latter were standing by and were not participants in the difficulty. The principals were arrested.

Among the affidavits that are coming into the possession of Secretary Schurz concerning the management of the Freedman's Hospital, in Washington, is one to the effect that an insane man, a patient in the hospital, was allowed to run at large over the wards and grounds of the institution, committing the most horrid and unnatural crimes. Children and dumb beasts were alike the victims of his insane ferocity.

The First National Bank of Kansas City, Mo., closed yesterday, owing to a shrinkage in deposits during the past few days of over \$350,000, added to the continuous drain during the past few months, aggregating a much larger amount. The closing of the bank took the community by surprise, and there was a heavy run on the other banks during the excitement, which it was thought, was dying out last evening.

At the miners' meeting at Linnecoming yesterday, sixteen mines were represented by thirty-eight delegates. A long discussion took place, and a vote resulted:—For fifty cents, twenty-six delegates; for fifty-five cents, eleven delegates; for sixty cents, one delegate. The rate proposed by the companies was forty cents. This action will be reported to the presidents, and their action will be awaited.

O. F. Ballard, the member of the Pennsylvania Legislature, arrested for embezzling the funds of various buildings and loan societies, and who was taken to Harrisburg to appear before a legislative committee, escaped yesterday from the custody of the sergeant-at-arms, who had been instructed to take him back to Delaware county jail.

Charles Schutter, a justice of the peace, was arrested at Hazleton, Pa., yesterday, charged with compounding a felony and malfeasance in office. Schutter released from custody a "Molly Maguire" named Dominick McGlynn, who was arrested for passing counterfeit.

A dispatch from Chicago says that news has been received there that another band of Sioux, numbering eighty lodges, have escaped from the Red Cloud Agency, and have gone north, the direction taken by the bands that had gone before.

The U. S. House of Representatives committee on Pacific railroads will, it is understood, report a bill to extend for ten years the time for the completion of the Northern Pacific railroad.

The trial of Anderson of the Louisiana Returning Board, was resumed in the Criminal Court at New Orleans yesterday.

At Lyon yesterday the situation was more favorable to the shoe manufacturers, and the strike will probably prove a complete failure.

## Murder.

LANCASTER, Ohio, Jan. 31.—Intense excitement exists in the small town of Lockbourne, twenty miles north of this city, in relation to a most revolting case of murder, preceded by seduction and criminal malpractice, the victim being a little girl named Lizzie Erwin, fourteen years old, whose death occurred on Monday.

Wm. Haslop, who for some months past has resided with the Erwin family, and the child's mother, a widow, are named as the culprits, the latter having been actively engaged in the monstrous crime which terminated in the death of the young girl. Haslop was allowed to escape after the true cause of death became known, but every exertion will now be put forth for his arrest, and there can be no doubt of his speedy punishment.

COURT OF APPEALS OF VIRGINIA.—George L. Christian was reappointed clerk for a term of six years, his first term having just ended. The case of Oshesim vs. Hatcher was fully argued by F. W. Christian, esq., and submitted to the court.

Rowe vs. Bently was partly argued by John S. Wise, esq., and will be further argued by L. R. Page, esq.

A London special says that the U. S. steamer Gattsburg has left Gruletto for Tabarca, a small island in the Mediterranean, near Alicante, Spain, for the purpose of escorting a French vessel, which has been shipwrecked and pilaged.

Althoff Bergmann & Co., of New York, importers and dealers in toys and fancy goods, have made an assignment. The liabilities are \$150,000, assets \$40,000.

The stockholders of the Ninth National Bank of New York, yesterday, agreed to reduce the capital stock from \$1,500,000 to \$750,000.

In Cincinnati, at twelve o'clock last night, O'Leary had walked 165 miles and Bartlett 115 miles.
